Health & Safety Advice:

Parents/Carers are fully responsible for and must accompany their own children at all times.

Farm hygiene procedures must be followed eg use wellie bath, regular hand washing and sanitising between activities and areas.

The events team will provide hot running water with soap and hand sanitiser but please feel free to bring your own sanitiser.

Be prepared and dress appropriately.

Children should wear waterproofs, wellies, as our experience is partially outdoors in any weather.

Parents please also remember to wear suitable footwear for outdoors!

Event risk assessment available on request.

First aiders will be in attendance at all times.

Remember to wear/bring suncream if the weather is nice.

Please ensure all gates and hutches are closed after use to keep our animals safe.

Please note:

Pregnant women who come into close contact with adult sheep during lambing, may risk their own health and that of the unborn child from infections which can also cause the ewes (female sheep) to abort their lambs. Healthy, living sheep and lambs carry NO RISK but of course normal hygiene protocols must be adhered to at all times.

Our lambs were past carrying any risk before they arrived at our farm.
